learn more.

## Training Details

- Flexible schedule: 1-2 weeks shadowing of an ILADS-designated training physician
- Tailored to meet the educational needs of its participants, regardless of level of current expertise
- Select from a list of approved training physicians
- View the program criteria and apply online

## Program Benefits

Participants will:

- Gain an elevated status among their peers
- Learn new clinical skills
- Gain an integrated, nuanced approach toward treatment
- Develop confidence in diagnosis and treatment

*"It would take me years of conference training to gain the knowledge I received in the ILADEF Physician's Training Program. Definitely a positive impact. I am treating tick-borne diseases with more confidence and knowledge because of it."*  
– Carol Harracksingh, MD

*"It was a wonderful experience being able to shadow another provider and learn how they approach tick-borne illnesses. I have learned new approaches, new testing, and new methods that I will be able carry over to patient care."*

– Jenna Saxton, DO
